SOS Phone

Egnatia Odos motorway includes **many long tunnels** where drivers must drive with **increased caution**, respect the Highway Code and follow the **instructions of electronic and conventional road signs**. While driving in road tunnels drivers must:

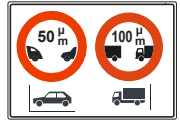

Obey the **speed limits**.

Switch on headlights and take off sunglasses.

Keep a safe distance from the vehicle in front according to road signs. For **Heavy Goods Vehicles** the safe distance is **double** that for passenger cars.

Obey the conventional traffic lights and the overhead **lane control signals**.

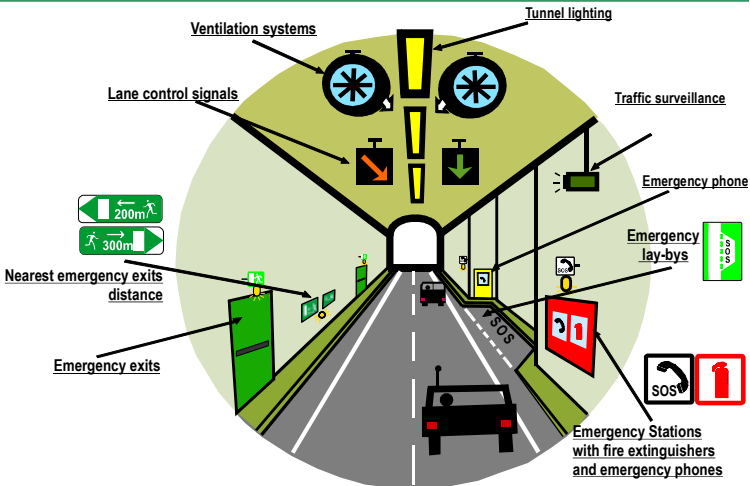

Follow the **instructions given by variable message signs**.

Do not turn or reverse.
Do not stop, except in an emergency.

SAFETY EQUIPMENT IN ROAD TUNNELS

- Egnatia Odos tunnels have special safety equipment for incidents prevention and emergency management.
- In case of an incident road users can call for support from emergency phones and use the fire extinguishers in the emergency stations.
- If it is necessary to evacuate the tunnel (e.g. due to fire) road users must leave their vehicle, with the engine off and the key in the ignition, and go, as soon as possible, to an Emergency Exit.
